

Using experience gained serving the pharmaceutical industry, EFP studied the available product on the market and developed the PHARMATUFF® line of cold chain products. Our solutions are designed with the features our customers wanted in a thermal shipper. We tested to ISTA drop and ship to eliminate the need for corrugated outer cartons. We improved seal technology, and offer part trays to hold payloads in the center of the pack, regardless of what refrigerant is used. We created a standard line with the same features on all sizes. This attention to detail makes it easy to get customized packaging systems off-the-shelf and on demand. Here are our most popular sizes, shipped as sets, in full bundle quantities.

EFP Corporation

223 Middleton Run Road
Elkhart, IN 46516
Additional Plants in:
Nashville, TN - Forward DC & Assembly
Decatur, AL - EPS Molding Plant

Inside Sales: Extension 270
